Dear Mary, 4/3/93

Peggy told me that Harry wrote you that I am the center of the conspiracynagainst him.

I love that! And I wonder what C & G will think about that, having just reprinted my Framm-Up and preparing to publish some months in the future excerpts from my JFK assassination books? Or what their lawyer, my friend will think?

The crazier he gets the better it looks! Peggy also told me about his writing letters on Baltimore police letterheads!

That certainly should warn the publisher as well as his lawyer!

I agreed for these republications long before I knew Harry was doing another book.

It surely will appear to be rather kooky for them to be publishing an evil man who leads a conspiracy aginst another author they publish.

As of today's mial nothing from Crouch.

But he phones. Not this time.

Maybe it means nothing. Maybe.

Best,
